OBJECTIVES

To establish a long-term career in the IT and multimedia industry: I am a motivated and adaptable professional with expertise in web development, programming, multimedia/graphic design, and IT support. Skilled in frontend and backend development, creative design, and software solutions, with hands-on experience in software and graphic design projects. Passionate about contributing to innovative digital initiatives while continuously enhancing my technical and creative skills.

CAREER SUMMARY

- Experienced IT and multimedia professional with over 10 years of combined experience in IT support, graphic designing, software development, and academic leadership.
- Demonstrated strong leadership as Program Chair and Tech Certifications and Innovations Coordinator at the State University of Northern Negros, overseeing curriculum development, faculty management, student certification programs, and departmental operations.
- Possesses hands-on expertise in technical support, network and server installation, multimedia design, web layout development, and software solutions, with proven experience as a Technical Expert/Layout and Graphic Artist for academic research journals.
- Latest work includes teaching advanced courses in Business Intelligence, Application Development, and Computer Programming, while actively engaging in research focused on software development, machine learning, IoT, and computer graphics.
